VERBS WITH PREPOSITIONS	
1. V + prep. + O: The meaning of these two words is usually very similar to the original meaning of the verb.	- V + about: ask, care, talk, think, learn,... - V + for: ask, apply, apologise, wait, prepare,... - V + to: introduce, refer, respond, listen, explain,...

Ss an example, e.g. To reduce the use of single-use plastic, we could use cardboard boxes instead of plastic packaging. - Draw their attention to each gap. Encourage Ss to guess the type of information they need for each gap. E.g. For Blank (1) we need a noun or noun phrase in plural. For Blank (2) it is a singular noun or noun phrase. - Underline key words in the notes to locate the information in the passage. E.g. Blank (1) is related to the idea of reducing plastic packaging. Therefore, it can be found in the first extract (by Hai, 18). - Read the parts that contain the key words carefully to identify the words/phrases. - Make sure the word/phrase for each blank is exactly the same as taken from the passage. It should fit the gap in terms of both form and meaning. Finally, it should not exceed the word limit. - Check answers as a class.	the whole class and give explanations for their choice.	5. rinse out
Task 4: Read the email extracts again. Match the following information with the right names. (7 mins)		
- Ask Ss to study the list of people's names and locate them in the passage. Remind them that their names can be found at the end of the extracts. - Encourage Ss to underline key words in the statements. E.g. 1. This person has learnt from a past mistake how to recycle things properly. 2. This person's green lifestyle is supported by a local business. - Have Ss re-read each person's or ideas and compare them with the list of options. Encourage them to pay attention to paraphrases and implications (if any). E.g. Hai's extract does not mention any mistake as in Statement 1, or recycling symbols in Statement 3. Nor does it talk about the drinking water as in Statement 4 or the use of single-use containers as in Statement 5. However, it talks about a local business (i.e., "a the supermarket near my house") and how it supports his/her green lifestyles (i.e., The supermarket near my house even provides	- Students do the matching. - Students compare their answers with partners then check with the whole class. Task 5: Work in pairs. Discuss the following questions. (p. 37)		
- Ask Ss to work in pairs. Have them discuss which green habits mentioned in the article have been adopted by them. Encourage them to say which ones they want to try in the future. - Invite some pairs to share their answers with the whole class.	- Students practise speaking in pairs. - Students share their answers with the whole class. - Students listen and give feedback.	<i>Suggested answers:</i> Similarly to Hai, I try to use less plastics when I go shopping. I also reuse any takeaway containers like Hoang. Besides, I bring a reusable water bottle to school like Phuong. But I have never paid attention to the numbers at the bottom of plastic objects described by Ha. Neither do I rinse out plastic objects carefully before recycling them as Binh recommends. So I think I will try to adopt Ha's and Binh's green habits in the future.
